Public and private school sites. Includes elementary, middle, and high schools. Intended use is mapping and general analysis purposes.

Feature Type: Polygon

Number of Records: 1030

Publication Date: 2023-03-09

Date of Data (Temporal Period Extent): 2021-09-01

Extent: San Diego region

Extent in Longitude Latitude

North 33.417113
West -117.575406   **East** -116.294375
South 32.542805

Extent in the item's coordinate system

North 2095399.000130
West 6157210.500088   **East** 6547991.632238
South 1779823.002019

Description:

School site addresses maintained by California Department of Education (CDE) were geocoded to the SanGIS parcels and street centerlines. Using aerial imagery, online research, site visits, and/or over-the-phone verification, attributes were corrected and/or polygons were adjusted to best represent the portion of the parcel in active use for school-related activities.

Fields:

Overview:

Public and private grade school sites. Includes elementary, middle, and high schools. Intended use is for mapping and general analysis purposes.

Citation:
File Structure: Public Schools Database
http://www.cde.ca.gov/ds/si/ds/fspubschls.asp

FID (OID)
　　Internal feature number.

cdsCode (String)
　　This 14-digit code is the official, unique identification of a school within California. The first two digits identify the county, the next five digits identify the school district, and the last seven digits identify the school.

schoolID (Integer)
　　Internal school facility identification code for the purposes of joining SCHOOL_POLY to school point data (for validation purposes) and tracking CDS codes with multiple locations.
　　Please note: the values for this field have been re-assigned in the 2019 edition of SCHOOL_POLY for accuracy in differentiating between public and private campuses. Six-digit numbers indicate private schools whereas one- through four-digit numbers indicate public schools. In the 2021 edition of SCHOOL_POLY, the code has been modified to be a unique field with no duplicates.

district (String)
　　School district name.

city (String)
　　The city where the school is physically located.

name (String)
　　School name.

addr (String)
　　Street address,

zip (String)
　　5-digit ZIP Code,

openDate (Date)
　　The date the school opened. A NULL value indicates that the start date precedes July 1, 1980 (the date the California Department of Education began maintaining this information), or a private school for which an open date is unavailable.

charter (String)
　　This field identifies charter schools.

docType (String)
　　The District Ownership Code Type is the text description used to identity the Administrative Authority.

socType (String)
　　The School Ownership Code Type is the text description of the type of school.

gsOffered (String)
　　The grade span offered is the lowest grade and the highest grade offered or supported by the school.

priv (String)
　　Private school indicator (Y or N).

shrtName   (String)
   Truncated school name.

Shape   (Geometry)
   Feature geometry.
